Arc Audio: A History

Since Arc Audio's conception in 1998, Arc Audio has created one of the world's largest networks of dedicated professionals. Each showing their commitment in sharing my vision of creating one of the largest family oriented networks in the mobile electronics industry.

At Arc Audio our #1 focus is customer service. We strive to create relationships with our dealers and customers, delivering superior customer satisfaction by producing the highest quality products on the market. Our products deliver maximum performance and quality. Giving our customers more added value for their money. We back our commitment to our customers with one of the highest rated warranty policies in the industry, giving them the security and assurance that should come with any personal investment.

Each of our lines feature tried and proven amplifier designs from industry legend Robert Zeff. From the KAR (Karabinis) series designed for maximum performance without a Hi-End price, to the FD series with a stylish chassis design by famous auto designer Chip Foose of Foose Designs, to our flagship line the Signature Edition by Robert Zeff. Arc Audio has something for every kind of music lover.
